NEWPORT, - - - NEW HAMPSHIRE

TOWN WARRANT

STATE OF NEW HAMPSHIRE.

To the Inhabitants of the Town of Newport, Qualified to Vote in Town Affairs:

You are hereby notified to meet at the Town Hall in said town of Newport on the second Tuesday of March next, at nine o'clock in the forenoon to act upon the following subjects, namely:

Article 1. To elect three Selectmen, Town Treasurer and Town Clerk for the ensuing year.

Article 2. To elect a member of the Trust Fund Commission for three years, a Collector of Taxes, Road Agents and a Water and Sewer Commissioner for three years and all other Officers, Agents and Committees necessary for the town business.

Article 3. To elect three delegates to the convention for the purpose of revising the constitution of the State.

Article 4. To hear the reports of the Selectmen, Town Treasurer, Auditors and Committees heretofore chosen and pass any vote relating thereto.

Article 5. To raise and appropriate such sums of money as may be necessary for the payment of the town debt and defraying the interest thereon for the year ensuing and pass any vote relating thereto.

Article 6. To raise and appropriate such sums of money as may be necessary for the payment of town charges for the year ensuing.

Article 7. To raise and appropriate such sums of money as may be necessary for the maintenance of the poor, for cemeteries, parks, commons and water works, and to improve the same and pass any vote relating thereto.

Article 8. To see if the town will ask for State Aid for the purpose of making permanent improvements on the highways and the main-

tenance of the same, raise and appropriate the necessary amount of money therefor and pass any vote relating thereto.

Article 9. To vote to raise and appropriate such sums of money as may be necessary for building and repairing highways and building and repairing bridges and pass any vote relating thereto.

Article 10. To see what sums of money the town will vote to raise and appropriate for sidewalks, building and repairing the same and pass any vote relating thereto.

Article 11. To see if the town will vote to recover with an asphalt or tar concrete top that portion of Main street between the railroad and the bridge and repair the gutters for the same street, raise and appropriate money therefor in such manner as the town may deem advisable.

Article 12. To see if the town will vote to oil the improved streets in the village limits, appropriate money therefor and passing vote relating thereto.

Article 13. To see if the town will reaffirm the vote taken at the last Annual Meeting in relation to repairing the bridges at North Newport and the Ayers bridge, so-called, and pass any vote relating thereto.

Article 14. To see if the town will vote to extend the Electric street lighting on Union and Pine streets and elsewhere about town as may be deemed advisable, raise and appropriate money for that purpose, and pass any vote relating thereto.

Article 15. To see what sums of money the town will vote to raise and appropriate for the purpose of lighting the streets of Newport village and elsewhere about town and pass any vote relating thereto.

Article 16. To see what sums of money the town will vote to raise and appropriate for the support of the Fire Department for the purchase of new apparatus for the same and pass any vote relating thereto.

Article 17. To see what sums of money the town will vote to raise and appropriate for parks and play grounds and pass any vote relating thereto.

Article 18. To see if the town will vote to raise and appropriate the sum of One Hundred Dollars for Winter Sports and authorize

the Selectmen to pay said sum to the Treasurer of the Newport Outing Club.

Article 19. To see if the town will vote to raise and appropriate the sum of One Hundred and Twenty-five Dollars to defray the expenses of Memorial Day exercises and pay the same to the Quartermaster of Fred Smyth Post, No. 10, Department of New Hampshire, G. A. R.

Article 20. To see if the town will vote to appropriate the sum of Three Hundred and Twenty-five Dollars for the support of the Newport Cadet Band, provided the band give a series of open air concerts during the Summer season, to be paid to the Treasurer of the band at the discretion of the Selectmen.

Article 21. To see what action the town will take, if any, in regard to the extension of the sewer system and appropriation of money for the same.

Article 22. To see if the town will vote to appropriate the sum of One Hundred Dollars for the benefit of the Fire Department, to be paid to the Treasurer of the Department, and pass any vote relating thereto.

Article 23. To see if the town will authorize the Selectmen to employ a Superintendent of war gardens, and appropriate a sum not to exceed One Hundred and Fifty Dollars for the expense of the same and pass any vote relating thereto.

Article 24. To see if the town will instruct the Selectmen to appoint a police force for service in Newport, designate the hours of service and pay for the same, raise and appropriate money for that purpose and pass any vote relating thereto.

Article 25. To see if the town will vote to appropriate money for the purpose of celebrating Old Home Day, provide the necessary agency for its expenditure and pass any vote relating thereto.

Article 26. To see if the town will vote to authorize the Selectmen and Town Treasurer to borrow money on the notes of the town in anticipation of taxes, fix the amount and pass any vote relating thereto.

Article 27. To see if the town will vote to allow a discount on taxes paid prior to June 15th, and September 1st, fix the amount of

such discount and pass any vote relating thereto.

Article 28. To transact any other business that may legally come before said meeting.

Given under our hands and seals at Newport this 23d day of February, A. D. 1918.

(L. S.)	ROTHEUS E. BARTLETT,	} Selectmen of Newport.
(L. S.)	SIDNEY G. WHITMORE,	
(L. S.)	MYRON W. TENNEY,

Detailed Account of Highways

Paid Andrew Allen, work on Central and Elm streets, and elsewhere about town, on Central street 326½ yards cement roadway at \$1.50 per yard	\$489 75
43½ yards paving at \$2.50	108 75

Total for Central street	\$598 50
Elm street, 583 1-3 yards cement roadway at \$1.50	\$875 00
Elm street, corner of Main, curb and sidewalk	45 62

Total for Elm street	\$920 62
Or for both streets	\$1,519 12
Appropriation for the work	\$1,712 00

Unexpended	\$192 88
Paid Andrew Allen, Beech street sidewalk	\$213 37
Driveways, Beech street	147 00
Concrete gutters, Beech street	158 41
Driveway across street	33 75
School street sidewalk	177 00

\$729 53

The abbuttors have paid as per receipts. A large part of School street walk is opposite school grounds, for which nothing was paid. In order to properly place the walk on Beech street much grading was required, and a gutter seemed to be indispensable for the safety of the walk, adding to the expense.

Andrew Allen, repairs of walks, Main street	\$147 00
Mr. A. C. Chadwick contributed \$20 for this work.	
Andrew Allen, patching street and sidewalks about the village	\$210.90

Total paid Mr. Allen	\$2,586 54
----------------------	------------

Statement of the State Aid Construction and Maintenance Highways Report

To The Selectmen of Newport:

I herewith transmit a detailed report of the receipts and expenditures of the construction work on State Aid Roads and maintenance work on the Trunk Line and State Aid Roads in the town of Newport for the year ending January 31st, 1918.

As the work was done by the same men it was thought best to include the same in one item, together with the miscellaneous items to save repetition and give the cost of each division in a summary.

Respectfully submitted,

L. A. PURMORT, Overseer of Poor.

REPORT OF Cemetery Commissioners

To the Citizens of Newport:—

During the past year the total number of burials in town has been 56, of which 4 were in North Newport Extension, 24 in the Pine Grove Cemetery, and the balance in the old Cemeteries.

Four lots have been sold in the North Newport Extension, for which \$100 has been received, and eleven lots in the Pine Grove Cemetery, from which \$264 has been realized.

The Perpetual care fund for the Pine Grove Cemetery now amounts to \$1,520.25, and an unexpended income of \$50. The Perpetual care fund of the North Newport Extension amounts to \$363.75, and an unexpended income of \$10.

The income from the above two funds can only be used for the care of the cemetery from which the funds originated.

The Improvement Fund of the Pine Grove Cemetery, including interest, amounts to \$1,169.62, and the Improvement Fund of the North Newport Extension, \$117.50.

Grateful acknowledgment is made of the wrought iron gates placed at the Maple Street entrance of the Maple Street Cemetery by Reprisal Chapter, Daughters of the American Revolution, from funds given by them or collected by them.

At the beginning of the year there was a balance of \$233.77 on hand; at the close of the year the cash balance, owing to the increased cost of labor and materials, is only \$1.98.

We therefore recommend that the sum of \$750 be appropriated for the cost of burials and general care of the cemeteries.

Respectfully submitted,	
GEORGE A. FAIRBANKS,	} Cemetery Commissioners.

REPORT OF HEALTH OFFICER

To the Citizens of Newport:

Your Health Officer submits the following report for the past year.

There were a few more contagious diseases in town during the past year than during the year preceding.

There were twelve cases of diphtheria and seven cases of scarlet fever. An epidemic of measles also prevailed during the early part of the winter. The town during the past year was fortunately free from both typhoid fever and infantile paralysis.

The cases of diphtheria were for the most part mild. There were, however, two cases which from their inception immediately took on a malignant form and resulted fatally.

The remarkable success by the immediate use, on the doctor's part, in suspicious cases, of anti-toxin, should not go without particular mention, for although it has been in use for quite a few years now, there are some who still look on it with suspicion and doubt its efficacy. Delays in the use of this wonderful germ-destroyer are fraught with great danger. Anti-toxin greatly nullifies the bad effects that were formerly attendant on this disease.

During quarantine, in some cases, conditions warranted considerable expense being incurred to assist those who were sick and also those dependent on them. We have had at times to furnish nurses at considerable expense to the town to save the patient, and by proper care of sanitary conditions to prevent the spread of the disease.

There were three deaths from tuberculosis, and a number of removals of infected persons from one place to another. The law requires that now in each and every such case, the premises should be fumigated. This has added to the expense account of this department.

During the coming Summer it is our intention to bring as effectively as we can to the attention of the residents of the town the dangers of the common house fly. Undoubtedly it is one of the greatest contagion carriers in our community. Everyone should do their bit to swat the fly. Stable owners should screen their stables. Manure piles are the greatest source of fly breeding there is in town. We wish stable owners could realize the danger, both to themselves and their neighbors, especially to the babies and children, from this source. We urge the active co-operation of all, that this nuisance be reduced to a minimum.

We must remember that in this critical period in our history we should be extra cautious as to our sanitary conditions; that is, we should guard against any tendency to relax our hygienic standards in any phase of our town life. The health of the wage earner is by no means of small importance. The men and women upon whose work depends the steady productiveness of mechanical power are irreplaceable factors. Efficiency in the prevention of disease among all our people was never more clearly indispensable than now.

Your attention should be again called to the urgent need of the putting in of a sewer system on Broadview Heights. This section is more thickly settled than many of us realize. In one section the houses are as close together as houses in many other parts of the town. We must realize that sanitary conditions cannot be of the best if this is allowed to continue.

As a protective measure, Broadview Heights should have a sewer system put in.

Respectfully submitted,

JOHN R. KELLY, Health Officer.

REPORT OF FIRE DEPARTMENT

To the Citizens of Newport:

I herewith submit a report of the Fire Department for the year ending January 31st, 1918.

The past year has been one of unusual activity for the department, having a record number of calls, responding to a total number of fifty-two alarms, of which 19 were bell alarms and 33 still alarms, all of which have been answered promptly and efficient services rendered by the company, at times under very trying circumstances, one alarm especially at about 4 o'clock in the morning, the thermometer at the time registering 43 degrees below zero. And they were compelled to lay 1400 feet of hose to reach the fire.

There has been added to the department during the year a Hook and Ladder Truck, which is strong and substantial, which is much safer than the one disposed of.

The Department is well equipped and will require only a small outlay for the current year.

There has been purchased on account of the coming year about 300 feet of ladders, which were much needed, and there should be two new extinguishers purchased, the total cost of both being about \$125.

We wish to thank the citizens for the liberal support given the department and assistance rendered by individuals at all times.

We wish also to thank the departments of Claremont and Sunapee for their prompt response for assistance and services rendered.

GEO. E. LEWIS, Chief Engineer.

REPORT OF POLICE DEPARTMENT

I hereby submit a report of the Police Department for the year ending Jan. 31, 1918.

Total number of arrests	40
Classified as follows:	
Intoxication	25
Selling liquor	7
Gambling	2
Fornication	2
Violating auto law	1
Assault	2
Larceny	1
Number of persons given lodging and not under arrest	76

Respectfully submitted,

HENRY G. HASTINGS, Chief of Police.

GEORGE E. LEWIS, Treasurer Play Ground Committee.

REPORT OF WATER COMMISSIONERS

To the Citizens of the Town of Newport:

The board of Water Commissioners of the town of Newport respectfully submit the following report for the year ending January 31, 1918.

Total amount of orders drawn by the Selectmen for construction, maintenance and repairs of the water works system to February 15, 1917	\$168,395 80
From this amount deduct cash received for ma- terial sold and for service and miscellaneous accounts and cash returned by treasurer of the board, also cost of North Newport water system to February 15, 1917	\$18,826 40
Also cost of maintenance and repairs	\$25,622 92
	<hr/> \$44,449 32
Net cost of system February 15, 1917	\$123,946 48
Total of expenditures during year ending Janu- ary 31, 1918	2,136 56
	<hr/> \$126,083 04
From this deduct amount of cash received on service pipe and miscellaneous accounts	\$395 10
Also cost of maintenance and repairs for the year ending Jan. 31, 1918	1,471 31
	<hr/> \$1,866 41
Net cost of system Jan. 31, 1918	\$124,216 63
Increase in cost during the year	270 15

RECEIPTS.

Received from Geo. E. Lewis and others on water rents 1917-18	\$10,382 94
Received on service pipe and miscellaneous ac- count	395 10
	<hr/>
	\$10,778 04
Paid into town treasury	10,778 04

BILLS APPROVED BY THE WATER COMMISSIONERS AND PAID
BY THE BOARD OF SELECTMEN.

Ludlow Valve Mfg. Co.	\$13 11
Sumner & Gerald, fittings and pipe	\$257 52
Farmer & Nelson, B. & M. R. R., freight bills and trucking	17 73
Whitmore & Cutting, stable teams	73 75
Robert T. Martin, kerosene	1 69
C. W. Tenney, auto service to pond	6 00
Republican Champion, bill forms and notices	10 50
F. P. Rowell, shavings and sacks and cement	7 30
Silsby & Johnson, supplies and work	30 48
New England Tel. & Tel. Co.	18 60
George B. Lear & Co., blacksmith work	12 15
F. E. Newcomb, pipe and fittings	21 37
H. L. Bond Co., tools	5 50
Rogers & Robb, labor and supplies	13 75

George H. Hart, wood	3 25
C. M. Quimby, pipe	9 80
Wchtoo Hanlo, team	6 00
Argus & Spectator, reports	5 00
Newport Electric Light Co.	7 30
Sam D. Lewis, 1-2 rent of office	30 00

Robert T. Martin, services as Commissioner	5 00
Ty L. Barker, services as Treasurer and Commissioner	15 00
D. J. Mooney, reimbursement for expenses for postage, stationery and incidentals	34 80
Salary as Superintendent of Water Works	583 33
Ty L. Barker, cash paid for labor on Water Works	891 51
	<hr/>
	\$2,136 56

Ty. L. Barker, Treasurer of board of Water Commissioners, has received from the board of Selectmen to pay for labor on Water Works \$891.51.

The following named amounts have been paid to parties named for labor on Water Works:

Victor Niemi	\$475 44
John Niemi	163 94
John Aho	154 57
Emil Koskinen	2 50
A. Koskinen	2 50
W. Tuanati	45 70
R. Pjornbah	13 75
L. Stenman	5 41
W. Hanla	13 40
A. R. Clark	13 75
J. Jaskair	55
	<hr/>
	\$891 51

WATER PIPE EXTENSIONS, RENEWALS AND HOUSE CONNECTIONS.

From the west end of Pearl street there has been laid two hundred feet of one inch cement-lined pipe, in the same ditch as that previously furnishes water for the Kendall & Dame ice house and stable.

From the Maple street main there has been laid 192 feet of one inch cement lined pipe south to supply water for the houses of Alfred and Arthur Clark.

Ten service pipe connections have been made to houses. The net additional cost to the system by these connections and extensions is \$270.15.

Before the paving was put down on the south end of Central street the 1½ inch galvanized pipe supplying the Wheeler Block was replaced by 1½ inch cement lined service pipe.

laid, to supply better facilities at the laundry. The new line also

The 1½ inch galvanized pipe to the Riverside Garage, also supplying water to the Edes Block and the lunch cart, was also replaced by 110 feet of 1½ inch and 86 feet of 1¼ inch cement lined pipe. The galvanized pipe which was taken out, after having been in use 20 years, had several pinholes rusted through.

In the latter part of February the 1¼ inch pipe supplying water to the houses on Maple street, east of Bradford road, froze near William Clark's. It required the labor of three men nearly a week to thaw it out. To avoid further trouble this pipe has been lowered a foot for a distance of 250 feet.

Only two lead connections have burst and three other small leaks developed during the year.

Cement Lined Pipe.

There has been laid of one-inch cement lined pipe	1310 feet
Of one and one-fourth inch cement lined pipe	110 feet
<hr/>	
Adding that previously laid	65,372 feet
The total becomes	66,792 feet

Cast Iron Pipe.

The present amount in the system is:

4 in. pipe	5,009 feet
6 in. pipe	62,963 feet
8 in. pipe	33,348 feet

10 in. pipe	4,825 feet
12 in. pipe	1,255 feet
Total	107,400 feet

Gate Valves.

There are upon the entire system:

4 inch valves	30
6 inch valves	78
8 inch valves	17
10 inch valves	4
12 inch valves	3
Total	132

Hydrants.

Hydrants owned by town	87
Hydrants owned by private parties	7

RECAPITULATION.

Net cost of system, Feb. 15, 1917	\$123,946 48
Total orders for all labor, for pipe and fittings laid on streets and service pipe connections, and for pipe and fittings sold during year, and cost of maintenance and repairs for the year ending Jan. 31, 1918	\$2,136 56
	\$126,083 04
From this amount deduct cash received on serv- ice pipe and miscellaneous amounts	\$395 10
Cost of maintenance and repairs	1,471 31
	\$1,866 41
Net cost of system	\$124,216 63
Increase in cost during the year	270 15

SUMMARY STATEMENT.

Receipts from water rents for the year		\$10,382 94
Interest on \$50,000 4 per cent water bonds	\$2,000 00	
Interest on \$20,000 3 per cent water bonds	600 00	
Interest on \$23,000 4 per cent water bonds	920 00	
Interest on \$4,600 3 per cent water notes	138 00	
Interest on \$26,346 (balance of cost of system Feb. 15, 1917) at $3\frac{1}{2}$ per cent	922 11	
Cost of maintenance and repairs for year ending January 31, 1918	1,471 31	\$6,051 42
Net income to town		\$4,331 52

Water for hydrant service, flushing sewers, watering troughs, town hall, engine house, school buildings, library and library house, Carrie F. Wright Hospital and houses, Maple street, Pine Grove and Catholic cemeteries, and street sprinkling is without charge.

GILMAN POND.

But a small amount of money has been expended at the pond.

Water was held 12 inches above high water mark until July 10, since which date it has been decreasing. At the present time there is 3 feet in the gate house.

	<hr/>
	\$778 37

Mr. Barker, the treasurer of the board, of the \$850.00 received of the Board of Selectmen, has returned the balance, \$71.63, to the town treasury.

SEWER CONSTRUCTION.

The work of providing for surface drainage and house sewers on the west ends of Syndicate street, Green road, Dale street and a part of Middle street, begun in 1916, has been practically completed. There remain three catch basins to be constructed when Middle street is in shape to have them built.

Including Tees, Ys and other specials, there has been laid 1462 feet of 6 inch, 948 feet of 8 inch, 1047 feet of 10 inch, and 542 feet of 12 inch Akron pipe.

Of the 22 houses now built, which this line was designed to accommodate, 18 have had sewer pipes carried inside the cellar walls. Eight have been plumbed for sinks and water closets, and one 2-tenement house for sinks.

Across private land the 10 and 12 inch surface drain pipes are, most of the way, in the same ditches as the 6 inch and 8 inch sewer pipes. On the streets, the sewer pipes are in the middle of the road and the drain pipes near the proposed ditches.

In 1916 there was expended	\$1,430 38
To complete the work the expenditure has been	806 79

A total of	<hr/>	\$2,237 17
------------	-------	------------

ITEMIZED STATEMENT.

524 ft. of 12 inch Akron pipe	\$201 95
1005 ft. of 10 inch Akron pipe	299 44
510 ft. of 8 inch Akron pipe	177 95
1324 ft. of 6 inch Akron pipe	185 58
125 Tees, Ys and other specials	120 79
12 Lamp Hole covers	54 23
1 Man Hole cover	7 50
8 No. 18 Grates and Bases	44 80
280 lbs. Oakum	28 60

SCHOOL WARRANT

STATE OF NEW HAMPSHIRE.

To the Inhabitants of the School District in the Town of Newport,
Qualified to Vote in District Affairs:

You are hereby notified to meet at the Town Hall in said Newport
on Saturday, the 9th day of March next, at 2 o'clock in the afternoon, to
act upon the following subjects:

Article 1. To choose a moderator for the ensuing year.

Article 2. To choose a clerk for the ensuing year.

Article 3. To choose a member of the School Board for the en-
suing three years.

Article 4. To choose a treasurer for the ensuing year.

Article 5. To choose agents, auditors and committees in relation
to any subjects embraced in this warrant.

Article 6. To determine and appoint the salaries of the School
Board, and other officers of the district.

Article 7. To hear the reports of the School Board, treasurer,
auditors, officers and committees heretofore chosen or appointed, and
pass any vote relating thereto.

Article 8. To see if the District will vote to erect a new high
school building in Newport Village, to choose a committee to locate
said high school building, to authorize said committee to secure land
therefor by purchase, gift or right of eminent domain, to erect said
school building, and to see what sum or sums of money the District

will vote to raise and appropriate or appropriate for the purpose of securing said land and erecting said high school building, and pass any votes relating thereto.

Article 9. To see what sums of money the district will vote to raise and appropriate for building and repairing school houses and out buildings, as the needs of the district may require, and provide suitable furniture and apparatus and needful conveniences therefor; pay for insurance on property of the district from loss by fire, and for the support of schools, and pass any vote relating thereto.

Article 10. To see what sum of money the district will vote to raise and appropriate for Medical Inspection in the schools, and pass any vote relating thereto.

Article 11. To transact any other business that may legally come before said meeting.

Given under our hands and seals at Newport, this 22nd day of February, 1918.

(L. S.)	FRED T. POLLARD,	}	School Board.
(L. S.)	D. SIDNEY ROLLINS,		of
(L. S.)	FRANCIS P. MURPHY,		Newport.

REPORT OF MEDICAL INSPECTOR

To the Superintending School Committee of Newport:

I hereby submit to you my report as Medical Inspector of Schools for the current year:

Personally examined, total number	615
No. found with defective adenoids and tonsils	148
No. found with defective eyes	162
No. found with defective ears	32
No. of cards sent to parents in reference to the above defects	262

Owing to the broken condition of the Schools and the prevalence of contagious diseases, especially measles, it has been extremely difficult to make my inspection. My report must at this time be incomplete, as Measles still are prevalent, many children are out of school and can not be examined. The extreme infectiousness of this disease, which can not be diagnosed until after the eruption appears, and the failure of parents to recognize the seriousness of this disease, often cause a widespread contagion.

Failure to call a physician makes it impossible to quarantine these first cases in season to prevent its getting a strong hold and thus breaks up the Schools.

There have also been scattering cases of Diphtheria all through the season. We now seem free from this disease.

Right here I wish to state that in my opinion great good would be derived if the Town would, in connection with the Medical Inspector, employ a competent Nurse, whose business it would be to visit the home of any pupil absent from School on account of sickness and

if, in her opinion, there was the least suspicion of a contagious disease, should have a physician called and see that the Health Officer promptly quarantined the house, should such disease develop and thus prevent any such widespread distribution of a disease as we have witnessed here in Newport this season.

The services of such a person would be of great benefit, as she would see that each defective pupil received the proper medical attention.

Should personally take them to the dentist and make arrangements for operations for the removal of tonsils and adenoids.

If the majority of the parents realized that many of the serious rheumatic affections of the present day arise from defective teeth and that diseased tonsils and adenoids are responsible many times for such serious diseases as deafness, rheumatism, quinsey sores, diphtheria, and even tuberculosis, they would be eager to co-operate in the work of the Medical Examiner. The work of the Inspector seems in itself insufficient. A Physician can locate the trouble and see that the parents are notified, but unless his labor is followed by some such course as I have outlined his work is to a great extent useless. I feel sure that such services could be obtained at comparatively little extra expense.

I have taken especial pains to investigate the workings of a plan similar to that which I have outlined, in towns where it has been tried and find that the ratio of defective pupils have fallen off in some cases nearly thirty per cent.

Respectfully submitted,

F. P. CLAGGETT, M. D., Medical Inspector.

SCHOOL REPORT

To the Superintending School Committee of Newport.

Gentlemen: I hereby submit my second annual report of the schools of Newport for your consideration and approval. I have had the privilege of superintending your schools four terms. During this time I have visited them 454 times, besides making many shorter calls.

High School.

The high school opened last fall with a registration of 98; there are now 92. A year ago last fall we registered 104, but at this time last year we registered only 89. The loss, therefore, a year ago during the same period was fifteen pupils against six pupils this year. Of these six two moved out of town, two were unprepared, and two had no interest in their work. Only one of the poorly prepared pupils was from Newport schools and she entered the high school two years ago last fall. As stated in our report last year we found the scholarship low and a great lack of real school spirit. We stated then that we believed both were being improved under the corps of teachers we then had. We are now sure of it; and, best of all, although the scholarship is being raised gradually, the loss of pupils is growing less. This has always been our experience, the more thorough the work required the better the attendance and the smaller the loss of pupils.

We were very fortunate to lose but three teachers from our high school corps. These were Miss Clark, who resigned to marry; Miss

Cutler, to teach in Massachusetts; and Mr. Beard, who is teaching in Maine.

Mr. E. C. Langmaid was engaged as sub-master and athletic coach. He has met our expectations and is doing good work for a young man just from college. Miss Clarice Shannon, the domestic arts teacher, has proved herself a very strong teacher in this department. Although this is her first attempt at teaching, she has greatly strengthened this department. We consider her one of the best in the State. The English department has been strengthened under Miss Cilley, who came to us as an experienced teacher.

The other teachers have proven themselves all that we predicted of them a year ago. They are progressive, conscientious, and hard working. They are at the schoolhouse from early morning until late in the afternoon.

The spirit of the school has changed very much for the better during the time we have been here. We know nothing about the spirit before we came, and are not comparing it preceding the time we came. The pupils are working much harder than they did a year ago, and are showing much more interest in their work. The discipline is much easier and the general tone of the school is much improved. Much credit is due Mr. Wiggin, the Head Master, and the rest of the credit should be given to the teachers.

The commercial department is doing good work under Miss Doherty's instruction. This is one of our most important departments. We hope soon to be able to graduate pupils from this department competent to fill the local positions calling for stenographers and bookkeepers. There is only one in the present senior class taking this course, but there are several in the lower classes. It is quite a popular course, especially with the girls, and it is largely for them that it is intended. Special emphasis is given to spelling, punctuation and English in this course, as these are the subjects stenographers are usually weakest in.

Grades.

Sewing is now given in the sixth grade. We hope by another year to give it in the fifth grade. Cooking should also be commenced in the

grades. The girls who drop out of school below the high school need sewing and cooking as much, if not more, than those who complete the high school. Every girl should know how to do both.

I wish I could say the right thing to interest you and the voters in Manual Training enough to have you vote to introduce it. May I repeat what I said last year? I shall never feel that I have done my best for the boys of Newport until I see this work installed.

"One of our greatest needs is Manual Training for the boys. This department should go hand in hand with Domestic Science. One is as important as the other. At present the boys are left in the classrooms without any definite subject to work upon except their regular school work while the girls are sewing. It is just as necessary for men to know how to handle ordinary tools and to do minor repairs about the house as it is for women to know how to do their part of the house work. This is not all; every school where manual training has been introduced has retained its boys and greatly increased its membership. Boys are kept in school and through manual training they become interested in the studies that they did not care for before. How much is a year's schooling worth to a boy? Statisticians tell us that every day spent in high school is worth ten dollars to a boy. We understand that you once had manual training in the schools but for some reason it was discontinued. We regret very much that this was done. We have had manual training in the schools we have served for several years and believe it to be one of the most practical subjects taught in our modern schools. It is no longer an experiment, it has proven itself a necessity. We hope it may soon be re-established in our schools."

Drawing was introduced last fall, with Miss Dort as teacher. Miss Dort has proven herself an efficient drawing teacher and the pupils are taking a great interest in this work. The officials of the public library have given us permission to hang specimens of the work done in this department in the public library where the public may see what we are doing. We wish to take this opportunity to thank them.

Our music department has done good work under the able direction of Miss Bateman. Sunapee has united with us this year, making it

possible for us to retain Miss Bateman, thus improving the music of both towns. Miss Bateman goes to Sunapee one day a week. The musicale given last year, and the several times the male quartet and orchestra have performed in public, having given the public an opportunity to judge somewhat of the work being done. This department intended to put on another musicale this year, but the fuel situation has made it impossible. Possibly later in the year it can be done.

We are still in the same crowded condition that we were a year ago, but we are trying not to let this keep us from doing our best. Most of the teachers are doing their best to improve the work in the grades. Many rooms are overcrowded; many pupils are in the wrong grade; several pupils have lost their interest in school and are too old and large for the grades they are in. The only ways of which we know to help such pupils is to place them in a separate room, give them the best teacher possible to find, and let them take some kind of manual educational work. As a rule the way to reach the overgrown pupil is through his hands and eyes.

The average age of a pupil entering the fourth grade should be nine and a half. We have four in one division of our fourth grade who are nearly fifteen, and five who are over twelve. These large boys feel very much out of place graded with boys nine years old, or even younger, and soon lose all interest in the school, thus injuring themselves and the rest of the school. So far as their age is concerned they ought to be in the high school, but they are not mentally qualified and should, therefore, be in a special room and given work suited to their age. Many of them would thus make good and would in time even enter the high school. How much is such a boy worth? Let the voters answer.

Text Books.

A few changes have been made in text books, but not as many as ought to be. We believe in making changes slowly and carefully; not to introduce a new book unless it is quite an improvement over what is being used. The arithmetics that were, and many that still are, in use in several rooms are very unsatisfactory to teachers and superintendent. Modern books in hygiene and physiology should be

furnished the intermediate grades. More books for silent and individual reading should be placed in nearly every room. More magazines should be furnished the upper grades and high school: they are just as essential in modern education as text books. History was never being made faster than it is today and the pupils of our schools should study it through literature of today, thus making history a live subject. We have tried to keep within the appropriation, which was too small.

All the text books in town have been stamped and numbered and a record made of where each book is. If a book is lost it is possible to trace it; and the one who loses it is required to pay for it. Most of the books that were worth it have been covered. Pupils are requested to furnish book-bags if they wish to take books home. Teachers are required to examine the books of their classes at least once a month and report their condition to the superintendent.

Many old discarded books have been gathered up and sold and many more will be disposed of soon.

We hope to thus improve the condition of our books and to increase the number and variety without increasing the total cost, save what the price per book has advanced.

Equipment.

Several maps and globes have been furnished during the year. A few more are needed. A physiology chart has been placed in the grades of the Richards building. Three additional typewriting machines have been placed in the commercial department and three of the old ones have been exchanged for new ones. One more machine is needed for the office. As it is now the only time we can have the use of one in the office is when it is not needed in the commercial department. This often delays the office work and sometimes interrupts the work of the class.

Improvements.

Window ventilators that will not allow drafts upon the pupils have been installed in all the rural schools and in all the village schools that are not ventilated by some better means. Jackets have been

put around the stoves in most of the rural buildings and were ordered around them all. This has made the rooms much more comfortable and healthful. Several of them admit the fresh air directly under them, thus giving warm fresh air directly to the pupils. An outlet for the foul air is connected with the chimney. Another year we hope to have each room thus equipped.

Floors are sprayed often enough with an oily spray to keep the dust laid. This one thing has done as much to make the schoolrooms sanitary as anything that we have done. Dust is one of the worst nuisances possible to have in a schoolroom, and doubtless is a great carrier of disease germs. The floors are thoroughly washed each vacation, weather and fuel permitting.

The outbuildings of the rural schools have been made sanitary by installing cement vaults, well ventilated and screened. The buildings can be entered from the school houses only, thus making it possible for the teachers to control them.

Supervised play has been introduced, thus greatly reducing the danger of injury during the play hours on the school grounds.

At least one teacher is required to remain at the schoolhouse during the noon hour, and at the Richards building two remain. Something hot, like soup, cocoa, or stew is furnished at cost to the pupils who remain at the Richards building for lunch. This is prepared and served by the domestic arts department of the eighth grade.

A paper press has been installed and all waste paper is pressed and sold.

Tall stools have been furnished the teachers. No teacher can do her best work sitting in a common chair, neither can she be expected to stand all day. The tall stools help her to rest and to have control of her school at the same time.

Several feet of radiation have been added to the heating system of the Richards building. This has made it possible to keep the building comfortable even in the coldest weather, with the exception of one room, which needs to have several feet more added. As the capacity of this building is used to its limit it is necessary to admit as much warm fresh air in winter as possible.

Teachers' Meetings.

Teachers' meetings have been held often throughout the district. It is our aim to make these meetings helpful to all the teachers, but especially to those who need help most. Anything relating to the schools is open for discussion. These meetings are held most often during the fall term, as there are more new teachers during this term. We hope to have papers presented by the different teachers for discussion in the near future. Much good can be accomplished at these meetings if each teacher will do her part and not leave it all to the superintendent, and we are sure she will.

Salaries.

Teachers' salaries were increased a small amount last year, but expenses of living increased much more. It will be necessary to increase salaries even more this year if we hope to retain many of our best teachers, and we cannot afford to lose the best ones. If any town needs efficient teachers, Newport does under her crowded conditions. A poor teacher is too expensive for any town to retain at any price. One year of poor teachers may ruin several pupils' lives so far as school work is concerned.

Needs.

Some such shade as the Allen shade should be installed as rapidly as the old shades are worn out and there are certain rooms where they should be installed at once. The light in these rooms is very poor and should be improved, regardless of expense. Pupils' eyes are being injured in these rooms. The Allen shade will help greatly to improve the light conditions. Most of the rural buildings need these shades on one side of them. The ideal way to light is from the tops of the windows rather than from the bottoms. The ceilings should be white-washed at least once a year to reflect the light and for sanitary reasons.

More blackboards are needed in some of the rural schoolhouses. A blackboard is one of the teachers' greatest tools.

The foundations of the Kelleyville house need to be repaired if school is to be continued there. They are tumbled down and are in

bad shape. The house is very cold, especially the floor.

Most of the rural buildings need to be painted inside and outside.

Several feet more should be added to the radiation of one of the rooms in the Richards building and to the radiator in the office of the Primary building. It is impossible to use this office in the winter, and, under the present crowded conditions, it is very much needed by the superintendent.

The water and heating plants of the Richards building need to be thoroughly overhauled and repaired. They are in very bad condition. Much money would be saved in fuel and the building would be much more comfortable in the winter. The water pipes are so badly corroded that the water will not flow upstairs when it is being used downstairs.

A suitable file should be furnished the office, in which data can be kept from year to year. It is almost impossible to find any data concerning the schools back of a year ago except the rank of the high school pupils. We had to borrow town reports of Mr. George Moore last year and this to obtain any data for comparison. There are no records of what the pupils have done in the grades. Nothing to tell when buildings were painted or repaired, when books, maps, charts or supplies were purchased or what became of them. When we consider that we do a business of \$45,000 to \$50,000, it would seem as though there ought to be a proper office equipment to file necessary data for each superintendent to know something about what has been done by his predecessors.

At least two or three windows in each schoolroom should be screened against flies. The last of the spring term and a large part of the fall term flies are very plenty in the schoolrooms and are very annoying to pupils and teachers. I need not take time or space to tell intelligent people the great danger of spreading disease by flies. I have counted on my clothing at one time in a schoolroom twenty-nine flies, and I have seen many more than that number on some of the children. If a child has sores, or is unusually dirty, flies are sure to seek him. Then when he moves away they fly loaded with filth and disease to light on the first child they come to. The voters would

not put up with such conditions at home, why should they allow it at school? Often I have left my office where I have been pestered with flies and gone down town to enjoy the office of some businessman; but teachers and pupils cannot do this.

It is entirely unnecessary for me to say that we need more room. Four additional rooms will greatly increase the efficiency of our system. Teachers have some excuse under the existing conditions for not getting the best results, but no excuse for not trying to do their best. We realize, however, that it is much easier to do our best under favorable conditions. The voters should do their part and I am sure the teachers, as a whole, will do theirs.

General Remarks.

By another fall we hope to have the seventh and eighth grades, or at least the eighth grade, prepared to do Junior High School work. We are just beginning to teach algebra and concrete geometry to them. Many of them are up to grade. We hope to have the majority of them up to grade before the end of the year.

The fuel situation has complicated our work; but parents, pupils and teachers have shown a fine spirit and are making the best of our present inconveniences. We hope to keep the work up to standard in spite of the present complications.

The total expense of maintaining your schools must necessarily increase. Buildings are growing older, furniture is wearing out, the number of pupils is increasing, more teachers are needed, salaries are increasing, cost of supplies and equipment is constantly advancing.

In closing allow me to say that to serve your town has been a pleasure because of the cordial co-operation and harmony experienced in administering the affairs of this office.

Respectfully submitted,

W. H. S. ELLINGWOOD,

Superintendent of Schools.
